Viewer: Page Settings and Layout

Last Modified on 2021-03-18 18:40

The Settings Cog at the top of the Viewer screen displays page settings:
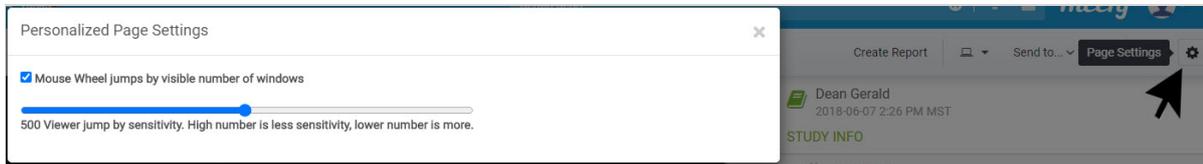

- **Mouse Wheel** checkbox toggles the scrolling functionality of your mouse wheel:
  - When the Mouse Wheel checkbox is selected, scrolling the wheel up and down will scroll up and down through your images
    - Slide the scroll setting **right to increase** sensitivity (scroll faster)
    - Slide the scroll setting **left to decrease** sensitivity (scroll slower)
      - Mouse wheel: ▫

Monitor Settings

Selecting the ⬚ ▾ icon at the top of the Viewer allows you to control how many images to display. You can display up to 16 images at once (4 x 4) by highlighting the number of squares (shown below in the red box) to represent how you would like them to appear in the Viewer.
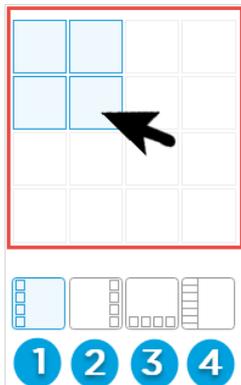

The last icons boxes (labeled above 1-4), toggle the Thumbnail and Study List sidebars:

❶ Displays Thumbnails on the right side of the screen

❷ Displays Thumbnails on the left side of the screen

❸ Displays Thumbnails at the bottom of the screen

❹ Displays your Study List on the right side of the screen

- A blue icon means the sidebar is active; select the icon to turn off the sidebar
- A white icon means the sidebar is not active; select the icon to turn on the sidebar

Examples

The examples below show how different setting variations appear in the viewer.

1 image, thumbnails on bottom
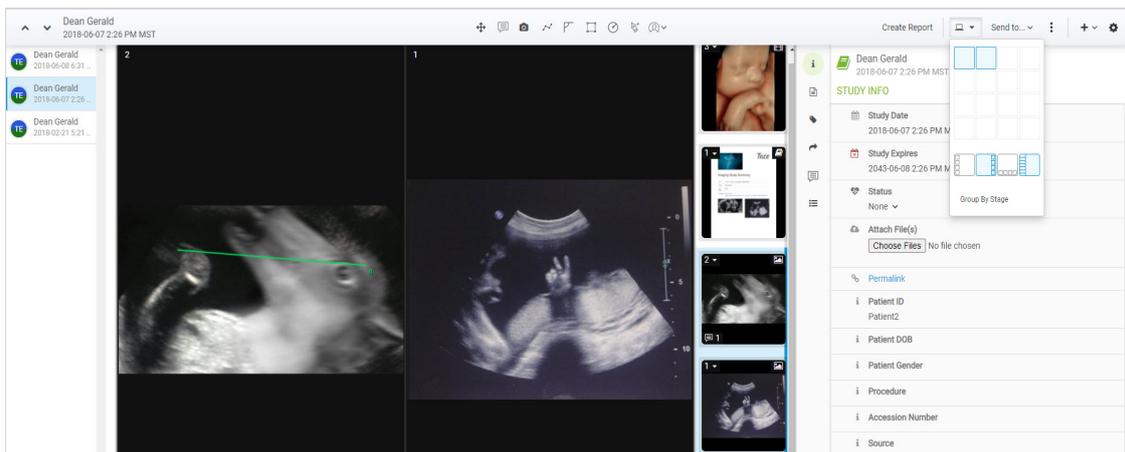

2 images, study list active, thumbnails on right, and side panel open
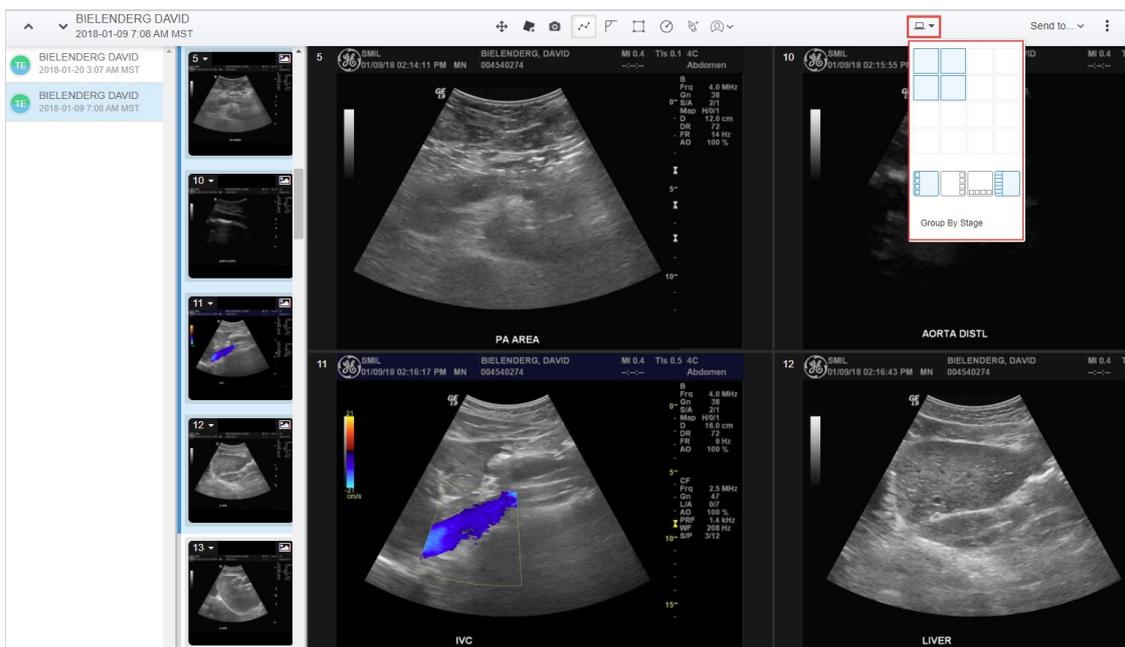

4 images, study list active, thumbnails on left

2 images, study list active, thumbnails on lright
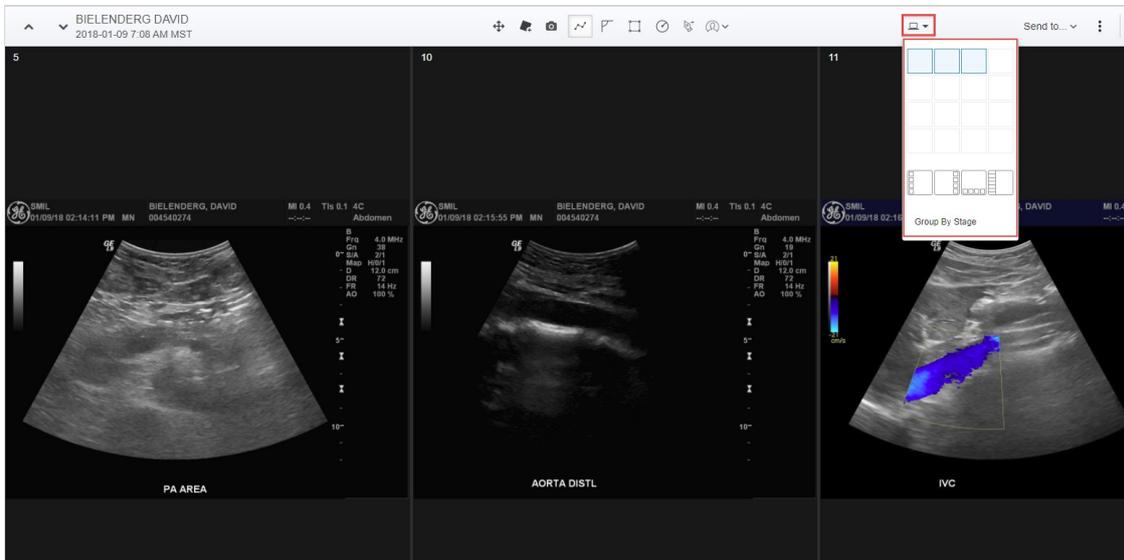

3 images, side-by-side, without any sidebars

6 images, thumbnails on right

Note: The viewer will display thumbnails in consecutive order. To view specific thumbnails side-by-side, *change the order on your Study List*.
