

Testing Configuration - Sending the first Study

Last Modified on 03/15/2017 1:53 pm EDT

After configuring your ultrasound system, follow the steps below to test the machine by sending a study to Tricefy:

- 1) Start a new study on the machine

 [Instructions for sending your first study](#)

- 2) Send the study (if the ultrasound machine is not configured to automatically send)

 [Instructions for programming Send buttons](#)

- 3) Confirm the study appears on the [Study List](#) in Tricefy
-
