Creating Studies

Select an article below for instructions for adding a new study to Tricefy:

[Starting from the Imaging System](#) - Send a study to Tricefy directly from your imaging system

[Starting from Tricefy](#) - Upload a study to Tricefy from your computer/network

[Creating a Study without DICOM](#) - Create a study in Tricefy without medical images (such as a study containing only reports)

Adding Content

Need to attach a report or add images to a study?

[Attaching Files to a Study](#) - Attach reports, pdf documents, and other non-DICOM (medical images) to an existing study

[Adding or Moving DICOM](#) - Add or move DICOM (medical images) to an existing study
