

Viewing a Consult

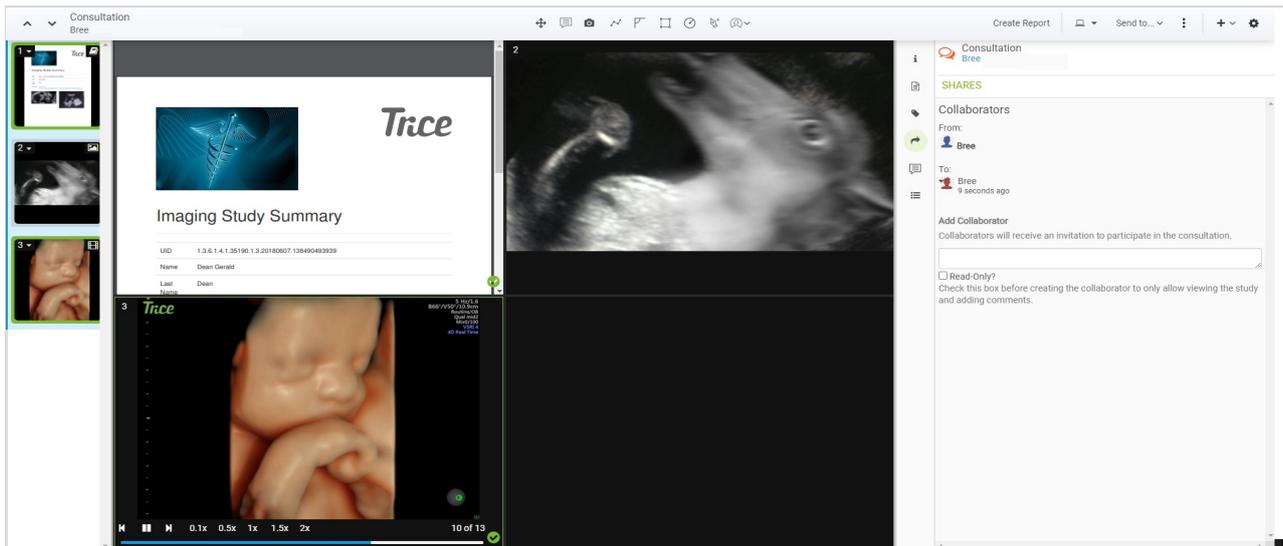

Last Modified on 2020-11-13 14:05

When you open a consult (or accept an invitation), the study displays in the viewer.

The viewer maintains normal functionality.

 See Viewer instructions, including annotation and screen layout

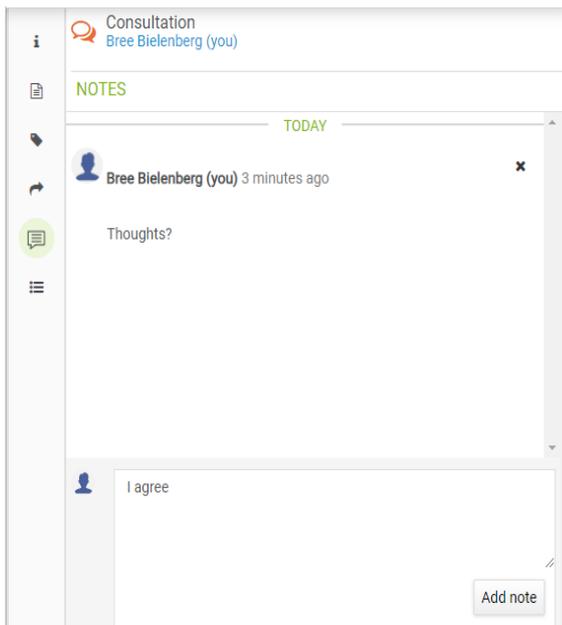

However, during a consult, the shares tab of the side panel becomes the **Participants** tab:

From here, you can view other participants and add additional people.

Select the **Read-Only** box to give someone read-only access to the consult. This will allow them to only view images and add notes (they will not be able to modify or download the examination).

Participants can interact using the Notes tab on the side panel:

- To add a note, enter text into the text box and select **Add Note**
- To delete a note, select the X next to the note

The Activity tab of the side panel provides a time-stamped history log, including who viewed the study, added notes, and any time the study was shared.

INFO	NOTES	PARTICIPANTS	ACTIVITY
			<p>Bree (you) 12 minutes ago Viewed study: "2018-02-21 - Dean Gerald"</p>
			<p>Beck 2 hours ago Viewed study: "2018-02-21 - Dean Gerald"</p>
			<p>Bree (you) a day ago Viewed study: "2018-02-21 - Dean Gerald"</p>
			<p>Bree (you) a day ago Added note to consult 2018-02-21 - Dean Gerald Please confirm.</p>

Select **Consults** from the navigation options at the top of the screen to return to your inbox:
