

Status Page

Last Modified on 09/28/2018 4:54 pm EDT

You can stay informed about what is happening with Tricefy by visiting our status page:

 <https://trice.statuscast.com/#/>

This page notifies you of what is released, known issues, and when issues are resolved.

You can either bookmark this page quickly access next time you wonder, "is Tricefy slow or is it just me?" or you can subscribe for automatic notifications each time something is posted.

To subscribe,

1) Select the **Subscribe** option in the upper-right corner:

The screenshot shows the Tricefy status page interface. At the top, there is a blue header with the Tricefy logo on the left and three links on the right: "Uptime History", "Subscribe to Trice" (highlighted with a red box and an arrow), and "Login". Below the header is a navigation bar with five status categories: "Normal" (green checkmark), "Informational" (blue info icon), "Performance" (yellow warning icon), "Disruption" (red X icon), and "Scheduled" (grey clock icon). The main content area is titled "Recent Posts" and contains three entries:

- Release Pushed to Production (4.0.92)** (dated 09/14/2018 3:50 EDT):
 - We are pleased to release Tricefy 4.0.92!
 - Icons for study details now include a separate PDF icon, instead of including the number of PDFs with the image count.
 - Ability to delete a "stacked" (series) from a study
 - Performance increase when downloading a large study in a zip file archive
- Release Pushed to Production (4.0.91)** (dated 09/02/2018 20:30 EDT):
 - We are pleased to release Tricefy 4.0.91!
 - An account may set a default status to be used for all newly added studies
 - Improved selection of images to send to patients or doctors, along with error messages for these dialogs.
 - Fixed sorting by Patient DOB on study list
 - Search filters (e.g. filter by referring physician) now treat accented characters properly in alphabetic sorting
 - Turkey is now available as a country for signup!
- Processing is degraded** (dated 08/14/2018 13:28 EDT):
 - Background processing is degraded. We are investigating.
 - This is resolved. Processing is back to normal. Resolved at 08/14/2018 13:57 EDT

2) Check **E-mail** to receive notification via email and enter your email address into the text box or check **Text Message** to receive notification via text message and enter a mobile phone number into the text box.
