

Trice Log

Last Modified on 2025-11-04 14:34

The Trice log can be used to view and search for all user activity that has occurred in the Tricefy account.

There are 4 ways to filter or search the Tricefy activity logs.

- 1. **Date** - select a single day to filter events on
- 2. **Operation** - search by a specific type of activity
- 3. **Status** - all, success, warning, failure
- 4. **Origin** - type in a specific username/email

When 1 or more of the search fields are filled in, click the **Filter** button to search the activity logs.

Accounts - Tricefy Demo Account

- Account Overview
 - Account Settings
 - Members and Privileges
 - User Identifiers
-
- Automation Setup
 - Inbound HL7 Messages
 - Worklist Fields
 - Uplinks
